

In Search of Bluebells by Margaret Taperell (mixed media collage)

This unique and stunning piece of art was inspired by the bluebells which can be found in many Chilterns woodlands in late spring, including in Cowcroft Wood near Chesham.

The artist says: "This image tries to convey the intensity and emotion felt when encountering the bluebells in the woodland. Every year I look forward to spring and the vibrancy of colour it brings. The bluebells in Cowcroft Wood have a stunning effect on all the senses."
