

**From Afar by Jennie Wood** (mixed media)

As autumn arrives, the woods throughout the Chilterns become as colourful as any found anywhere throughout the world and display a spectrum of autumnal hues that are uniquely English.

Artist Jennie Wood explains, "Beacon Hill with its iconic crown of trees has a visual aura that is mysterious and mythical. This simple profile and bold outline attracted me. This mixed media piece represents the many times I have seen the trees against a changing sky and landscape."
